

## **Greasy Floor Damp Mop Procedure**

**Product Needed:** Mr. Clean Professional Greasy Floor Cleaner

**Tools Needed:**

- Wet floor sign
- Clean mop
- Mop bucket and wringer

**Cleaning Frequency:** Daily or more often, depending on soil levels

**Preparation:** Review MSDS, products labeling and caution statements. Choose appropriate safety equipment.

**Special Directions for this Task:** Start with a clean mop head and fresh solution. Clean the least soiled areas first. Empty mop bucket, clean and return equipment to storage area. *Remove wet floor sign ONLY when surface is thoroughly dry.*

**Step 1:** Sweep entire area of floor to be cleaned with a broom, and discard debris in a trash can.

**Step 2:** Put out wet floor sign in area to be mopped.

**Step 3:**

- Fill a 4-gallon mop bucket to the fill line with warm water.
- Add 4 ounces of Mr. Clean Professional Greasy Floor Cleaner (1 oz per gallon of water)

**Step 4:** Place mop in solution and move mop up and down until mop is sopping wet.

**Step 5:** Twist mop in wringer and wring out as much solution as possible.

**Step 6:**

- Starting at the farthest point from the door, mop a 10 ft. by 10 ft. area.
- Mop inside frame using a figure-8 motion and turning mop over at least twice.

**Step 7:** Move to the next 10 ft. by 10 ft. area, working towards the doorway and repeat Steps 4 through 7.

**Tips**

- Change mop bucket solution when it becomes dirty and after every use.
- Remove wet floor sign ONLY when the surface is thoroughly dry.
- To clean greasy mop heads see the Cleaning Greasy Mop Heads procedure
