

RETAIL SDS (Safety Data Sheet)

Please visit <https://smartlabel.org/product-search/> and search the corresponding Brand to locate full ingredient and product safety details for this product.

Safety Data Sheets (SDS) provide a standardized listing of the chemical and physical characteristics of a product and safe handling procedures in a workplace setting (e.g. manufacturing plants, distribution centers, and customers' retail stores). P&G has prepared SDS for many of our products in accordance with the Globally Harmonized System of Classification & Labeling (GHS) criteria of the U.S. Occupational Health and Safety Administration (OSHA) workplace safety regulations.
