

SAFEGUARD® LIQUID LOTION HAND SOAP

Safeguard Lotion Hand Soap is a high surfactant formula enriched with moisturizers that wash away dirt and bacteria that can cause cross-contamination and spread disease without antibacterial ingredients, when used as directed. Its pearlescent appearance, luxurious lather, rich foam and smell make it resemble the current Safeguard. Concentrated moisturizers and gentleness make it the perfect choice for frequent hand washing at customers who choose a non-antibacterial formula.

Safeguard Lotion Hand Soap is available in one gallon refills and 800 mL closed loop bladders.
