Data to support EQ Credit: 3.3 for LEED-EBOM 2009: Green Cleaning: Purchase of Sustainable Cleaning Products and Materials. The credit requirements for disinfectants, metal polish, floor finishes, strippers or other products not addressed by one of the standards below meets the California Code of Regulations maximum allowable VOC levels for the specific product category.

- Green Seal GS-40, for industrial and institutional floor care products.
- Environmental Choice CCD-112, for digestion additives for cleaning and odor control.
- Environmental Choice CCD-113, for drain or grease traps additives.
- Environmental Choice CCD-115, for odor control additives.
- Environmental Choice CCD-147, for hard floor care.

Mr. Clean Professional Disinfecting Multi-Purpose Cleaner meets Title 17, California Code of Regulations maximum allowable V.O.C content for Consumer Products as a General Purpose Cleaner. The Regulated V.O.C Limit for this category is (0.5)%. This product is in full compliance with the California Code of Regulations.

The ERM Global Product Stewardship practice was engaged by The Procter and Gamble Company (P&G) to provide a technical review and compliance assessment according to California Air Resources Board (CARB) Regulation for Reducing Emissions from Consumer Products or "The General Consumer Products Regulation" as amended through December 31, 2013. All assessments conducted by ERM rely upon the formulation and supplier information provided by P&G, in addition to review of publicly available supporting data. No testing was completed by ERM at the time of this assessment.
